EXPERIENCE

Harmoney — Mumbai, In
Frontend Engineer (Full-time) — *Mar 2024 - Present*

1. Revamped Live Market on the DART dashboard using Golden Layout, making it more intuitive & thereby simplifying the trading flow.
2. Built Bonds Search & Detailed pages using Golden Layout, driving the development of the FinD dashboard.
3. Led the migration of the DART dashboard from Nuxt2 & BootstrapVue to Nuxt3 & PrimeVue for improved functionality.
4. Enhanced web performance on the DART dashboard by resolving critical issues.

HireQuotient — Bengaluru, In
SDE-2 (Full-time) — *Jun 2022 - Feb 2024*

1. Developed the new website entirely from scratch using NextJS with Incremental SSG in record time.
2. Delivered a no-code Strapi CMS solution for rapid, performant static page generation by business/content teams.
3. Engineered a microservice for on-demand generation and delivery of candidate reports in PDF format, deployed on GCP Cloud Run, enhancing efficiency in bulk operations.
4. Spearheaded the development of an integrations module, enhancing both assessment and sourcing products by connecting with major ATS platforms such as Greenhouse, Lever, Zoho Recruit, BambooHR, Loxo, etc.
5. Built React Native app for the assessment dashboard that runs on iOS, Android, and the web, achieving an 85% concurrency of the codebase.
6. Formulated and executed automation strategies for efficient LinkedIn outreach and response tracking, utilizing daily cron jobs.
7. Contributed to two successful ProductHunt launches: EasySource (#5 Product of the Day) and JD Generator (#1 Product of the Day).
8. Fostered a culture of learning by mentoring junior developers/interns and encouraging knowledge sharing.

INDmoney — Remote
Software Engineer Intern (Full-time) — *Jan 2022 - May 2022*

1. Pioneered financial calculators module development for SEO purposes using NextJS, React Query.
2. Developed the Company Financials Component for US Stocks Detail page using React Highcharts.
3. Built the Fixed Deposit Purchase Flow on Web handling KYC and Non-KYCed users.
4. Implemented Family Account Invite Flow on Web from scratch using Webviews.

PROJECTS

- **Indian Quotes API**: Free, open-source API delivering curated quotes from India's most successful entrepreneurs.
- **Github Business Card**: Generate a professional business card of your GitHub profile.
- **Typeform Clone**: Cloned Typeform UI using ReactJS and TailwindCSS.
